

YELLOWSTONE BEES

Natural Body Care – Since 1997

Scent Guide

Yellowstone Bees offers a variety of scents to help you tap into nature's gifts while taking care of your skin. We hope our Scent Guide will help you choose the right fragrance for you!

Scent is a natural gift that can change our mood, bring back a memory, or take us to another place. Used since ancient times, essential oils are trusted healers that provide natural therapeutic benefits with wonderful aromatic properties. Many essential oils have the ability to help heal and rejuvenate skin while providing pleasing aromatherapy scents to calm and renew the spirit.

“Nature's sources never fail”
John Muir, American Naturalist

YELLOWSTONE BEES

Natural Body Care – Since 1997

Chamomile Lavender A soothing smile from Mother Nature. Chamomile calms even the most sensitive skin while its warm sweet scent quiets the mind and soul. This exotic oil was essential to the ancients and remains an important tonic for our busy, modern lifestyles. Our combination brings together the anti-inflammatory and healing properties of Lavender with the soothing, peaceful effects of Chamomile for an overall rejuvenation effect on the skin.

Aromatic Scent: Chamomile is warm, fruity, like “apples and straw”. Combined with the sweet herbal, floral scent of Lavender results in an exotic rich aroma that is relaxing and luxurious.

Citronella Lemongrass Cedarwood This blend of three essential oils provides a fresh, clean aroma while it acts as an insect repellent. Cedarwood is a spiritually grounding scent and Lemongrass makes an excellent deodorizer. A perfect combo for our Closet Spray that surrounds clothes with an airy perfume.

Aromatic Scent: Citronella has a strong, fresh, well-rounded lemon fragrance. Lemongrass also has a lemon-fresh aroma but with a spicy undertone and subtle wood tones. Cedarwood adds a warm balsamic woody scent.

Clary Sage Lemongrass Clary Sage is antiseptic while Lemongrass is invigorating and deodorizing. We use this dynamic combination in our USDA Certified Organic Herbal Soap.

Aromatic Scent: Clary Sage has an earthy, fruity and floral aroma that is both nutty and herbaceous. Lemongrass has a lemon-fresh aroma and subtle wood tones.

Clary Sage Lemongrass Eucalyptus Cedarwood Cedarwood’s balsamic scent is pleasing and calming while the aroma of Lemongrass is uplifting and improves alertness. Clary Sage is antiseptic, Lemongrass is deodorizing, and Eucalyptus soothes aching muscles and joints. This combination of essential oils is available in our luxurious Foot Scrub.

Aromatic Scent: Clary Sage has an earthy, fruity and floral aroma that is both nutty and herbaceous. Lemongrass has a lemon-fresh aroma and Eucalyptus has a strong menthol fragrance. Cedarwood balances all of this with subtle wood tones.

Natural Body Care – Since 1997

Elemi Lavender Calming aroma gently scented with pure essential oils of Elemi & Lavender both renowned for skin rejuvenation qualities. Elemi is antiseptic, balancing and toning. In skin care it is often used to help rejuvenate aged, wrinkled skin and heal infected cuts, wounds, and inflammations.

Aromatic Scent: Elemi has a light, fresh, balsamic-spicy, lemon-like scent – rich but subtle and surprisingly fresh and clean. Combined with the sweet herbal, floral scent of Lavender.

Elemi Rosewood Elemi & Rosewood is a classic blend with a lasting fragrance. Elemi comes from the tropical elemi tree and earned its healing reputation centuries ago as an immune system stimulant in addition to its anti-aging effect. Rosewood enhances skin's elasticity and helps repair wrinkled or damaged skin. Rosewood's reputation for helping clear mental clutter, stimulate dreaming and promoting feelings of euphoria adds to its appeal.

Aromatic Scent: Rosewood's aroma is especially pleasing and uplifting. It has a sweet, warm, woody aroma with a tea-like note, a little floral and fruity at the same time. Elemi has a light, fresh, balsamic-spicy, lemon-like scent – rich, subtle and surprisingly fresh and clean.

Geranium Ylang Ylang Two essential oils blended in perfect, happy harmony. The uplifting delight of Geranium is accompanied by the smooth, creamy top note of Ylang Ylang. Geranium helps balance skin's tone & suppleness and promotes balance mentally to relieve stress and anxiety. Ylang Ylang is emotionally uplifting and relaxing at the same time.

Aromatic Scent: Geranium has a rich, wonderfully herbaceous scent with a hint of minty-rose. It is a light fresh aroma that is mood-lifting. Ylang Ylang is an intensely sweet, exotic, soft balsamic yet slightly spicy scent – much like almonds and jasmine. It is a heady fragrance used for centuries as an aphrodisiac and antidepressant. Ylang Ylang is one of the most sought after aromas in the world.

Lavender Lavender has been a calming, restful, and serene influence for centuries. It inspired the modern practice of aromatherapy and is often referred to as a “medicine chest in a bottle.” Lavender is a natural antibiotic and detoxifier. It promotes skin regeneration and speeds wound healing.

Aromatic Scent: Lavender is a sweet floral-herbal fragrance. Once called “Blue Magic”, Lavender has a relaxing aroma that helps you unwind, soothes nerves, and promotes restful sleep.

Natural Body Care – Since 1997

Lavender Spruce The gentle floral of Lavender and the purifying evergreen of Spruce perform a perfect duet in our Linen Spray. This uplifting and bright blend soothes, comforts, and clears your mind. With Lavender Spruce on your pillow, you can sleep easier and wake refreshed.

Aromatic Scent: Lavender is a sweet floral-herbal fragrance that is very relaxing. Spruce has a woody, fresh, mildly balsamic scent that is sweet with fruity tones.

Peppermint For centuries, Peppermint has brought a cooling relief from exhaustion. Its key ingredient “menthol” magically refreshes and relaxes with its simultaneous cooling and warming sensations. Aromatherapists love Peppermint’s ability to enliven and sharpen the senses resulting in improved mental clarity.

Aromatic Scent: Peppermint has a clear, penetrating mint fragrance that is bright and fresh with herbaceous warm undertones.

Peppermint Eucalyptus Cool, stimulating Peppermint is balanced by strong woody Eucalyptus to bring a fresh, crisp scent that gives you a true mental and physical boost. Eucalyptus essential oil is packed with aromatherapy and skincare benefits.

Aromatic Scent: Eucalyptus has a fresh, stimulating and cooling aroma with soft wood undertones. Peppermint has a clear, penetrating mint fragrance that is bright and fresh with herbaceous warm undertones.

Sunshine Citrus (Orange, Tangerine, Grapefruit) Our unique blend of Orange, Tangerine, and Grapefruit essential oils tone and brighten the skin while the breezy and happy perfume raises your spirit. Orange is known for its calming and cooling effect on the skin as well as its ability to reduce stress and boost mental clarity and mood. Tangerine adds a unique and uplifting aroma. Grapefruit provides detoxifying benefits noted for use in reducing cellulite.

Aromatic Scent: Lively, sweet aroma of fresh, ripe oranges combined with the tart uplifting aroma of ripe grapefruit. Tangerine is tangy sweet and radiant with a more subtle aroma than orange.

Natural Body Care – Since 1997

Tea Tree The oil of the Australian tea tree is vigorous, revitalizing and refreshing. Tea Tree oil can alleviate cuts, bites, burns and other skin ailments. It is antibacterial, antiseptic, and healing with a spicy menthol fragrance that will rejuvenate spirits.

Aromatic Scent: Tea Tree has a warm menthol fragrance. It is a fresh, antiseptic and medicinal scent.

Tea Tree Peppermint This formula merges the strong healing power of Tea Tree oil with the cooling yet stimulating effects of Peppermint. The result is a seriously refreshing and revitalizing treat which makes it superb for all types of skin conditions.

Aromatic Scent: Tea Tree has a spicy, menthol fragrance. Peppermint adds a clear, penetrating mint fragrance that is bright and fresh with herbaceous warm undertones.

Huckleberry The humble huckleberry is a Montana native. It is wild, fresh, and fruity. Bees love it. Bears love it. People love it too. Our best selling fruity fragrance!

Lilac The smell of lilac is upbeat, soothing, and centering. The distinct aroma of delicate lilac blooms can transport you to a carefree spring day in an instant.

Rain Rain is a gentle bouquet of the sun, wind and clouds. Not too fruity, not too floral, not too earthy. In a word – rain is freshness.

Natural Body Care – Since 1997

Raspberry Luscious raspberries that drench lips in softness. Use Raspberry Lip Balm for a sweet taste of summer all year long.

Sweet Grass If you love the outdoors, you'll love the warm earthy smell of sweet grass. We love it because Yellowstone Bees was created in 1997 in Sweet Grass County, Montana!

Sweet Pea The flowers of this climbing herb yield a strong, seductive floral aroma. As traditional as the picket fences they often grow along, the scent of sweet pea comforts, warms and soothes.

Vanilla Vanilla just might be the world's favorite fragrance. A warm, cozy scent with a hint of spice. Great when you need a hug.

Fragrance Free We understand that some noses prefer no scent at all. And we know that some skin is so sensitive that only the purest possible products will do. Our fragrance-free products include Hand & Body Cream and Hand & Foot Balm.

See the Quick Reference Chart to match your favorite scents with the Yellowstone Bees products that feature those scents. For more detailed information about the essential oils we use including their origins as well as skin care and aromatherapy benefits, please see our Natural Ingredients Library on our website.

Please note that Yellowstone Bees® makes no medical claims about our products or ingredients. These products are not intended to diagnose, treat, cure or prevent any disease. Always consult your health care professional if you are pregnant, lactating, think you might be pregnant, or if you have any other health condition before applying this or any similar product. Keep products out of the reach of children and pets. If you have ultra-sensitive skin, you may want to test a small amount of any scented product on your skin to make sure there is no irritation.
